**WELL WOMEN HEALTHCHECK PROGRAM AND**  
**COLORECTAL CANCER SCREENING PROGRAM**

**1. BACKGROUND**

The Arizona Department of Health Services, Bureau of Chronic Disease Prevention, receives funding through a cooperative agreement with the Centers for Disease Control and Prevention (CDC) and the State of Arizona to provide a statewide breast and cervical cancer screening program, known locally as the Well Woman HealthCheck Program (WWHP). The WWHP is part of the National Breast and Cervical Cancer Early Detection Program (NBCCEDP), which was authorized when the U.S. Congress passed the Breast and Cervical Cancer Mortality Prevention Act of 1990, Public Law 101-354. The Act placed the responsibility for NBCCEDP with the United States Government's Centers for Disease Control and Prevention. It also provided the foundation of NBCCEDP policies and requirements with regard to program eligibility and operations in each state. The program was established in Arizona in 1993.

In addition, the Arizona Department of Health Services, Bureau of Chronic Disease Prevention, received funding from Proposition 303 (Tobacco Tax) Funds to establish a Colorectal Cancer Screening Program in 2007 to help reduce the State's cancer burden from colorectal cancer, one of the leading four causes of death in Arizona.

**2. OBJECTIVES**

The Colorectal Cancer Screening Program seeks to establish a state-wide toll free hotline as a central point of contact for men and women seeking services to provide eligibility and referral information once the screening project is initiated with a targeted start date of July 1, 2008. The purpose of this solicitation and subsequent contract(s) will identify organizations that have the ability and capacity to provide the expertise and resources to meet the immediate and future needs of the department to provide staffing of the existing WWHP hotline as well as provide staffing of the anticipated hotline for the colorectal cancer program.

To qualify as a client for breast and cervical cancer screening and diagnostic services under the Well Woman Healthcheck Program, the woman's income must not exceed 250% of the Federal Poverty Level established annually by the Federal Register. She must be a permanent resident of Arizona, or have been in the State for at least one day with the intention of establishing permanent residence in Arizona. She must be uninsured or under-insured. Under-insured is defined as health insurance that does not cover preventative health care, or where the unmet deductible exceeds \$100. Special attention and priority is given to enrollment of traditionally underserved populations (racial and ethnic minorities, women with disabilities, women partnering with women) outside of the mainstream of patient care.

- A. **Women 65 years of age or older:** Women 65 years of age or older who do not have Medicare Part B may be enrolled in the Well Woman HealthCheck Program. Women with an intact cervix or history of cervical neoplasia are eligible to receive Pap test screening in accordance with the WWHP cervical screening policy. The annual clinical breast examination and pelvic examination are included in the office visit reimbursement, an allowable expense which may be included in the Contractor's Expense Report. However, if diagnosed with cancer this population of women is not eligible to receive treatment services under the Breast and Cervical Cancer Prevention and Treatment Act of 2000. These women, though they do not have Part B, Medicare, will be eligible for other benefits through Medicare, Part A. These women, when possible, should be referred to healthcare organizations or agencies providing

benefits provided under Medicare Parts A and B. If a client is unable to pay Medicare premiums she may be eligible for assistance under AHCCCS.

- B. **Women 40 – 64 years of age:** Women 50 – 64 years of age are the priority population for mammography screening services. Women 50 years of age and older must account for 75% of the mammography services, utilizing federal funding provided to WWHP contractors. Mammography services, utilizing State funding, will be provided to women 40-49 years of age. Women with an intact cervix or history of cervical neoplasia are eligible to receive Pap test screening in accordance with the WWHP cervical screening policy. The annual clinical breast examination and pelvic examination are included in the office visit reimbursement.

The Breast and Cervical Cancer Mortality and Prevention Act of 1990 strictly prohibits use of NBCCEDP funds for cancer treatment. In October 2000, the U.S. Congress passed the Breast and Cervical Cancer Prevention and Treatment Act of 2000, Public Law 106-354. This law gives states the authority to provide optional Medicaid coverage to certain breast or cervical cancer patients. In the spring of 2001, the Arizona Legislature passed H.B. 2194 that authorizes the Arizona Health Care Cost Containment System (AHCCCS), effective January 1, 2002, to provide cancer treatment for certain women diagnosed through the WWHP with breast cancer, pre-cancerous cervical lesions and cervical cancer. To be eligible for treatment, women must be screened through the Well Woman HealthCheck Program on or after April 1, 2001, be under the age of 65, a resident of Arizona, have no credible health insurance coverage, and be a U.S. citizen or qualified alien.
